### Second Professional (2022 Batch) - Academic Calendar

Date	Milestone	Plan
<b>18-12-2023</b>	Second Professional commences	Three teaching blocks First block: December 18, 2023, to April 14 2024
<b>15-01-2025</b>	Second Professional ends	Second block: April 15, 2024, to August 11 2024 Third block: August 12, 2024, to December 15 2024
<b>16/12/2024 to 15/01/2025</b>	One month for examination followed by vacation. (University Exam will commence in third week of December 2024)	

Sessional examinations are as follows:

Block 1	Block 2	Block 3 & Remedial
March 26 -28, April 10- 13 Theory: Pathology (April 10), Pharmacology (April 12), Microbiology (April 13), Practicals: March 26-28 (Patho, Pharmac, Micro)	July 22-31, Aug 1-2 Theory: Pathology (July 22), Pharmacology (July 23), Microbiology (July 24), Forensic Medicine (Jul 25), Medicine (July 26), Surgery (July 26), OBG (July 27), Community Medicine (July 27) Practicals: July 29 – 31, Aug 1-2 (Patho, Pharmac, Micro, Community medicine & Forensic Medicine)	November 14-26 Theory: Pathology (Nov 14, 15), Pharmacology (Nov 18, 19), Microbiology (Nov 21,22) Practicals: Nov 23, 25 - 26 Remedial: Path (Dec 5), Pharmac (Dec 6), Micro (Dec 7)

### Block Plan 2023-24

Entire syllabus of Second Professional subjects (Pathology, Pharmacology & Microbiology) is divided into three blocks.

The teaching of the core second professional subjects is organised around systems to ensure alignment.

Block	Pathology	Pharmacology	Microbiology
1	General Pathology, Genetics and Immunology and Haematology	General Pharmacology, Autacoids, Immunomodulators, General Chemotherapy, HIV, Malaria,	Immunology, General Microbiology, Infection control and prevention
2	Hemodynamic disorders, Cardiovascular System, Respiratory system, Gastrointestinal system Hepatobiliary system	Cholinergic system, Adrenergic System, Diuretics, Cardiovascular System, Drugs acting on blood and blood forming organs, Gastrointestinal System, Respiratory System, Treatment of Protozoal infections (Amoebiasis, Filariasis), Anthelmintics, Antiviral (other than HIV)	CVS, Blood, Respiratory system, GI, and Hepatobiliary system
3	Genito urinary System, Male genital system, Female genital system CNS, Bone, Endocrine, Soft tissue, and Skin	Endocrine System, Urinary Tract Infection and STDs, CNS, Rheumatoid Arthritis and Gout, Drugs acting on Skin (including Leprosy and Antifungal Drugs)	CNS, Musculoskeletal system, Genitourinary and STD, Zoonotic diseases

## **Division of 250 students into batches for Small Group Teaching**

**250 students will be divided into four groups for the SGT & DOAP sessions of Pathology, Pharmacology and Microbiology:** Group A (83 students), Group B (84 students), Group C (max. 83 students)

Each group further divided into 4 subgroups as follows.

- **Group - A** (83 students)
  - Group - A1- 20 students
  - Group - A2- 21 students
  - Group - A3- 21 students
  - Group – A4- 21 students
- **Group - B** (84 students)
  - Group - B1- 21 students
  - Group - B2- 21 students
  - Group - B3- 21 students
  - Group - B4- 22 students
- **Group - C** (83 students)
  - Group - C1- 20 students
  - Group - C2- 20 students
  - Group - C3- 20 students
  - Group – C4- 23 students

The class will be divided into 3 groups for the SGT & DOAP sessions of Forensic Medicine & AETCOM module. Each group further divided into three or four subgroups to ensure that the maximum number of students in a group would be 20-30.

### Block-1 (18.12.2023 to 31.03.2024) Timetable for Second Professional MBBS (CBME Batch 2022)

# Some classes would be SDL (refer to detailed timetable)

\*Batch would be divided into A, B & C & all students will finish the activity in the week.

Each group further divided into three or four subgroups to ensure that the maximum number of students in a group would be 20-30.

\*\* Pandemic module (modules 2.2, 2.4 & 2.5) will be covered in Block 1,2. Module 2.1 & 2.3 is integrated in the teaching-learning of Microbiology schedule.

**The anchoring lecture classes of AETCOM will be held in the allocated lecture hall of the batch i.e. the same lecture hall where all lectures are conducted.**

**The remaining sessions (small group) would be held in the demo rooms of the respective lead department. The name of the lead department is stated in parenthesis in the detailed timetable.**

### How to read the detailed timetable?

The timetable makes use of colours to indicate the department and systems. It also uses colour coding of the boxes to indicate integration.

The colours used for various systems are as below:

Colour codes for system
1. General
2. Cardiovascular system
3. Digestive system and Excretory system (includes Hepatobiliary)
4. Endocrine system
5. Sensory system (includes skin, eyes, & ears)
6. Immune system, lymphatic system & Haematology
7. Musculo-skeletal system
8. Nervous system
9. Renal system and Urinary system
10. Reproductive system
11. Respiratory system

P.S. General is used in case the topic does not fit into any system or involves multiple systems.

The colours used for fonts of various departments are as below:

Colour Codes for different departments
Community Medicine
Forensic Medicine
Pathology

Pharmacology
Microbiology
Medicine
Surgery
OBG

The box of the cells containing classes/sessions having integration have been highlighted as below:

**Border shading for different types of integration**

Nesting

Correlation

In addition to this, there is text in the box indicating the level of integration and department(s).

Colour codes have also been used to highlight the pandemic module, AETCOM module & the dedicated time provided for Simulation & Research. The codes are explained below.

Colour	Module/Activity
