To our parents:

None of us got where we are solely by pulling ourselves up by our bootstraps. We got here because somebody - a parent, a teacher, an Ivy League crony or a few nuns - bent down and helped us pick up our boots.

Thurgood Marshall

Visionaries not only believe that the
impossible can be done, but that it
must be done.

Bran Ferren

Mission Statement

Vision

To improve the community by mobilizing the caring power of the student fraternity.

Mission

To create an original publication that is an honest, thorough and accurate historical record of the year, which captures the essence of what it is to be a student in an artistic, informative and unbiased manner that the entire student body can feel proud to be included in; and to inculcate every student with an attitude of inquiry and providing an open, cohesive & wholesome environment for expression of ideas.

Acknowledgements

It's been a truly remarkable year. One in which I've witnessed our committee grow and prosper. 2017 has been a monumental year in the Editorial Board's history, only because we took the first step in going from print to digital. Of course, none of this was done single handedly. A great number of people have been involved in making this year successful.

Firstly, I would like to give thanks to Mr. M M Padiyar, and his team at Ad Syndicate who have been instrumental in helping us design the SignumVitalis. Special thanks to Mr. Lokesh Acharya for sitting with us every day and for being patient enough to deal with and execute our grand ideas and expectations. Sir, you have been a great help to us all.

I am eternally grateful to our Dean, Dr. Pragna Rao, for all her support and guidance these past few months. We would not have been able to do any of this without her. The Associate Deans and the rest of the KMC Administration deserve a special mention as well. I am also greatly indebted to our Faculty Advisors – Dr. Bharti Magazine and Dr. Anita S for their never-ending encouragement and advice. They were always willing to lend a helping hand, one that was much appreciated.

I would like to thank Pranav Rajasekhar, Student Council President, for believing in me, for fighting on our behalf and for giving us the tools and support that we needed to persevere. Thanks to the rest of Student Council for providing us with intel and for giving us events to cover. Thanks to Armaan Ahuja, Editor-in-Chief of the Health Sciences chapter of Manipal The Talk Network, and his team for assisting us with coverage and providing creative ideas whenever required.

To those who came before me – Dr. Tamaghna Ghosh and Dr. Medha N Rao, I would not have been able to do it without you. Your years of experience guided me through the confusion and helped me shape the committee. Dr. Mahreen Sohail deserves a special mention as well – she has been my role model for the past few years and I can't imagine pursuing new goals without consulting her.

To my incredible Associate Editors, Aniket Naik and Rohini Bilagi – honestly, I would not have been able to do anything without you two. Rohini – your mind was like the ultimate machine. You had every possibility and option mapped out in a systematic manner. Aniket – you were the perfect committee member; ready to step up as and when required. To my talented Heads of Photography, Siddarth Pratapneni and Disha Patra – I could not have asked for anyone better. You two were the perfect team, ready to take turns and manage the coverage of events.

To my pillars, Ishani Mitra, Shraddha Murali, Shreya Utla and Adithi Shankar – you have been here with me from the start. Your presence and contribution this past year has been such a source of support for me and I honestly can't imagine getting through this without you all. To my committee: you all are a vibrant set of individuals who are so diverse and unique yet fit together like a jigsaw puzzle. The successes of the committee reflect your talents and nothing else.

Finally, to the college, thank you for giving us the opportunity to create content. Hopefully, we inspired a few to create works of art as well.

Foreword

A yearbook represents the vibrant voice and quintessence of the student community. Creativity, talent, originality, humor, satire – all these are powerfully and effectively conveyed through a student platform. This is the conduit through which all the unexpressed sentiments are documented and preserved for posterity. Many years down the line, the contents of this eclectic collection will kindle nostalgic memories and enable you to re-live those priceless, indelible impressions of student life.

I am delighted that the KMC Student Council is embarking on yet another edition of Signum Vitalis.

May the effervescence of this endeavor spur you on to greater and even more rewarding accomplishments in the future.

Very best, always.

Dr. K. Ramnarayan

Dr H S Ballal

Student life in an educational institute is very precious. It is here that a student is initiated into the world of science and technology to gain knowledge of the skills he has to acquire to pursue his professional career on completion of his studies. The College Magazine is an appropriate medium to give expression to attainment of the skill developed. I am sure this College Magazine will showcase the students' personality development. My best wishes to students of Kasturba Medical College Manipal, for a successful career.

Best wishes,

Dr H S Ballal
Pro Chancellor
Manipal University

Dr Pragna Rao

My dear Students,

Congratulations on this wonderful edition of Signum Vitalis! I appreciate the enthusiasm with which you all of you have contributed to it. Every word you have written, every photo you have published will become an important piece of history for our archives. The global footprint of KMC alumni is always eager to see how your generation is carrying the KMC mantle forward. And Signum Vitalis is the best portkey in which they enter their College campus again.

To the Ed Board, I'd like to say that you symbolise the words- "The difficult we do immediately. The impossible takes a little longer." Full marks to you for compiling everything with so much creativity and beauty.

In conclusion, dear students, there is never an ideal time in the future in which you will begin to work towards achieving your dreams. The challenge is in the moment; that ideal moment is always now.

Wishing you every success and the very best always.

Dr Pragna Rao

Dean
KMC Manipal

Dr Bharti C Magazine

You have got to have a goal.

The youth of today are at a crossroads to understand what globalization stands for and how they can fit in the ever-changing global scenario. For this they require a positive attitude, zeal and a fund of energy. Above all, they need to have a goal in life that gives them direction and a way to follow.

Goals outline what we truly want. They help us believe in ourselves and inspire us to reach out for the gifts life has to offer. Goals are driving forces that brace us to move on even in adverse situations encountered in the journey of life. Set goals for yourself and live a life full of incredible possibilities.

“If you want to live a happy life, tie to a goal, not to the people or things.”

- Albert Einstein

Dr Bharti C Magazine

Faculty In Charge - Editorial Board
KMC Manipal

Dr Anitha Shivaji

Excited to be part of yet another edition of the Signum Vitalis. These printed pages contain materials which are the product of exalted young minds assembled by a diligent team. Kudos, you guys!

When you flip through these pages in the near future, may it bring a warm sense of happiness within you, make you reminisce about all the fun and difficult times, how you overcame those challenges, fought to get your way, celebrated the same with your gang of friends - Let this reinforce that YOU can do it and drive you to achieve bigger things in life!

“Hey! Remember that day in college when...?”

Cheers to more such times!

Have a great year, all my dear students.

Dr Anitha Shivaji
Faculty In Charge - Editorial Board
KMC Manipal

EDITOR - IN -CHIEF

Meghna Sivakumar

It's the end of an era.

When I started my year as Editor-in-Chief of this beautiful committee, I was quite pleased to learn about the existence of a suitcase filled with older copies of the Signum Vitalis. Opening that suitcase was like jumping through a portal to another dimension. The books' pages were adorned with black and white photos – each so carefully chosen to represent the soul of Manipal. There were also interviews with then favorite teachers, some of whom still teach and inspire students today. One thing that stood out to me was a list of addresses listed at the end of the book – it was a list carefully compiled to ensure that the Interns who were about to leave the college forever, knew how to contact their fellow batchmates.

That list of addresses was in my mind for a long time. In the new digital age, it's become almost effortless to stay in touch with old friends. Yet, people still don't take the time to reach out and make a phone call. In fact, people get imparted with a false sense of familiarity. For example, I'm close to my friend who's studying in Canada. However, the snapchats we send each other to maintain streaks and the memes we tag each other in daily are not sufficient for me to keep tabs on her life events. It's imperative that we learn how to truly embrace the social media age and use it to broaden our relationships, rather than create false friendships. It's also important to use the new tools of today to strengthen and modify old traditions.

This was the ideal that I wanted the committee to focus on this year. While of course, creating a digital yearbook does not possess the same appeal as a printed version, we have to change with the times. Digital media has lesser potential to get lost or misplaced (though it can get corrupted – but that's another story.) and thus has greater value in our lives. You may not be able to physically hold your yearbook. But you are blessed with the ability to revisit your past from anywhere in the world.

For this reason, we created a website to digitally document the events of the year, in addition to designing an e-version of the Signum Vitalis. The website was designed keeping The New Yorker in mind and was aimed at being a conduit for broadcasting the creativity and achievements of the student body. We broadened our coverage of student events by creating a scoreboard for UTSAV so that the students knew how well KMC was doing during the events. Although we have not ventured far into the digital world, I take comfort in a few well-known words – the journey of a thousand miles begins with a single step.

Hopefully, this year will serve as a stepping stone to push the Editorial Board to attain greater heights and exposure.

(x)

ASSOCIATE EDITOR

Rohini Prashanth Bilagi

Way back in my second semester, I sat down in a classroom in Interact and filled out a form to audition for the Editorial Board 2016-17. I was there for a sole reason - I wanted an outlet to write. To be honest, I hadn't been expecting much apart from something to help pass the time, but before I knew it, two years in the committee passed, and I somehow ended up here, with way too many friends. I also developed an inexplicable fondness towards tiny notebooks and design. Fantastic friends and flip books aside, the work this year did provide its share of challenges. Dealing with them caused a fundamental change in the way I think. I am not the same person I was when I joined Ed Board, or indeed, when I became Associate Editor, but rather someone who is hopefully more capable and experienced.

Coming back to the main focus of this column - we created a yearbook! That is no mean feat. To create something as big as this from scratch is always an endeavor, with months of toil and thought put into every page. The first blank CorelDRAW Page can be daunting, a reminder of all the work that is yet to come. But when the year is over, and Signum Vitalis is in your hands, the memory of that empty page on day one serves as a reminder of what can be achieved when brilliant minds come together to work towards a collective goal - to capture the year as it happened, for posterity.

The completion of this yearbook marks the end of my tenure as Associate Editor. Before stepping down, I would be amiss if I did not thank the following people:

Mr. M M Padiyar, Mr. Lokesh Acharya and the rest of the staff at AdSyndicate for making our work go so smoothly, even when problems arose.

The committee, for raising the bar even higher than it was set previously - with your insane talents, and for putting up with all the close deadlines, hectic schedules, and last minute press work. The best part of working in Ed Board is you guys.

My friends, for helping me get through this year sane and for making sure that I wasn't just working 24x7.

Aniket, who's also gone through this hectic year as Associate Editor with me. It's been wonderful working with you. Meghna, for being a dream to work with. You were a fantastic EIC. Your perseverance and dedication to the Editorial Board are why we have a Signum Vitalis and the website we have today.

Lastly, but most importantly, my parents, for encouraging me to constantly try new things, step out of my comfort zone and take on leadership roles. Thank you for your daily phone calls and advice. Thank you for everything you do for me, and for all the love and support you provide.

Before I sign off - I've had the best of times with the best of people, thanks to the Editorial Board. And now, onto whatever comes next.

Allons-y!

ASSOCIATE EDITOR

Aniket Rajesh Naik

Two years ago, filling that seemingly endless form at Interact, I never thought the day would come when I would be writing one of these myself, yet here I am, penning down my last work as a member of the Editorial Board. To be honest with you, the only reason I was able to join the Ed Board was because Medha, the then Editor-in-Chief, found my stick figure comic funny. Ever since then, it's been an amazing journey. I didn't even realise when these two years passed by and now I'm left only with fond memories: be it a random burrito party or Halloween.

My experience in the Editorial Board wasn't just fun and frolic, it came with its own set of responsibilities. My transition from a writer to Associate Editor, and the duties it entailed, instilled in me a sense of leadership and accountability that I hope to carry forward and reflect in my future. In retrospect, the guy who joined the Ed board back in 2016 is way, way different than the person now.

Now, as to why I write this: the book you're holding in your hand, it's made by us. Yep, I'm not kidding. All the way from scratch- a blank page on CorelDRAW to this wonderful yearbook that it is now. Yeah, it was scary! You have no idea if it would look good or not, or if people would like it. But at the end of the day, when we hold that hard-bound copy in our hands, the nostalgia of creating pages upon pages fresh in our mind and a smile on our face as we treasure and marvel at our hard work and toast to our success, for this book is proof of what can happen when creative, boundless minds work in synchrony.

As they say, 'All good things come to an end,' and with the publishing of this year's SignumVitalis, so has my term as Associate Editor. However, I'm obliged to thank a few people before I officially step down:

Mr. Lokesh Acharya, Mr. M M Padiyar and the rest of the AdSyndicate staff for putting up with our constant demands and helping us achieve our dream

The amazing committee members, without whom, this dream wouldn't have taken off. Each and every one of you is outstandingly brilliant at what you do. I hope you continue to shine like the stars you are. You put up with insanely tight deadlines and schedules and long press hours and it's paid off beautifully. I'm definitely going to miss you guys.

My friends, who convinced me to take up this post and continually support me. I couldn't have done this without you guys being there for me to fall back on when I felt overworked. To Ohviya, Shreyasi, Ishani and Shraddha, for their guidance and being amazing seniors. You guys taught me a lot and I'm grateful for it.

Rohini, my co-Associate Editor, who's been my constant go-to for any mistakes that I may have made at press. I wouldn't have made it through this intense year without you. Meghna, madam EIC, for giving me a chance to prove myself. You were an amazing leader and a supportive mentor, looking past my follies, continuing to push me to do better. Your hard work and timeless efforts are why this book and the website exist.

Lastly, my parents, who encouraged me, supported me, guided me and pushed me out of my introvert tendencies. I definitely wouldn't have done this if you hadn't told me to go express myself that fateful day. Thank you for everything.

And now, before I finally rest my hand, I have had an amazing time with Ed Board. Be it the lame puns or the late night pasta and cluedo or even hanging out at registration desks; I will never forget these memories.

To infinity, and beyond!

SOIL 2017

SOIL - Students on International Lands

KMC is famous for its enthusiastic students with brilliant minds. A few of them were presented with the opportunity to travel to international waters and participate in electives fully sponsored by Manipal University. A few others were fortunate enough to be able to present some of their best research abroad. These 'students on international lands' returned with some memorable experiences which they will cherish forever.

Niranjan Karthik
Flinders University, Australia

Flinders University, Australia
This was a once in a life time experience!
Perfect mixture of fun and learning. I
couldn't have asked for anything better.

Abhigna Kolupoti
Flinders University, Australia

The most enriching and rewarding
experience of my undergraduate years.
Nothing compares to it.

Medha Rao
Groningen University, Netherlands

It was lit! It was almost as much fun as watching The Room, and it also lasted a month. March 2017 was academically refreshing, psychically uplifting and physically exhausting. Nerding does have its perks, trust me.

Ramakrishnan
Groningen University,
Netherlands

It was an incredible experience where many things came off of my bucket list. All fun apart, my elective in the University of Groningen was a great learning experience!

Ramya R Kamath
Maastricht University,
Netherlands

My four week elective in Anaesthesiology gave me the opportunity to learn and practice many skills like laryngeal mask insertion, endotracheal intubation, bag and mask ventilation, etc. Apart from General Surgery, we were also allotted days to learn at Cardiac, Orthopedics and other OTs. The professors also engaged students and staff in interesting case based discussions everyday. The weekends spent at scenic places like Lucerne and Paris were the highlight of the trip. Overall, it was a very enriching and unforgettable experience for me.

Trishaala Bahl

Maastricht University, Netherlands

It was the experience of a lifetime, a total dream come true! I learnt so much and Europe was beautiful; I got to visit 5 countries over 4 weekends! Also, Dutch people are the sweetest in the world!

C'est La Vie

IGCLA & IGMM 2017

The third rendition of the Indo German Conference of Lindau Alumni saw a decorated array of speakers whose knowledge spanned a plethora of scientific topics. Numerous delegates eagerly took up this unique opportunity to discover the advancements in various fields of science by means of the research extolled by the speakers. These reputable speakers had the honor of attending the Nobel Laureate Meetings in Lindau, Germany and they spoke of their experiences at this event.

The Indo German Metabolic Meet was held for the first time. It was a summit for discussing the various inborn errors of metabolism and comprised of several talks and workshops which exposed the delegates to pedigree analysis, metabolic screening and mass spectroscopy.

21ST - 24TH SEPTEMBER

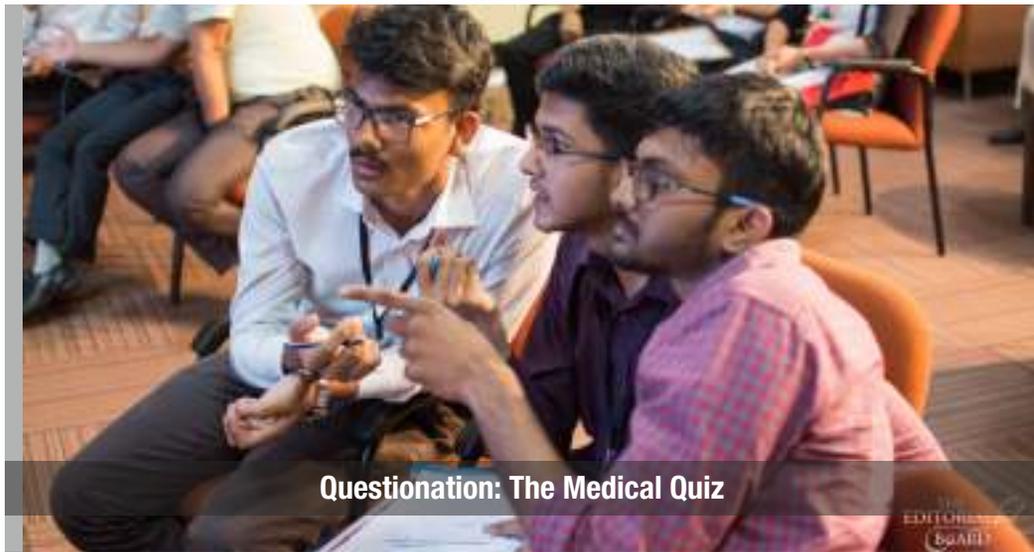

Opening Ceremony

Guest of Honor: Dr. Philipp Ducros

Questionation: The Medical Quiz

Awarding ICMR Certificates

Laser Avenue

Gel Electrophoresis Workshop

Day 1

After much anticipation, this edition of IGCLA was inaugurated and a meritorious batch of speakers, who had attended the Nobel Laureates Meet at Lindau, honored the gathering with their presence. Students presented their novel research through case presentation seminars while other delegates took part in various workshops. IGCLA offered an ideal platform for the exchange of ideas that held the potential to change our world.

Interventional Radiology Workshop

Interventional Radiology Workshop

Interventional Radiology Workshop

Day 2

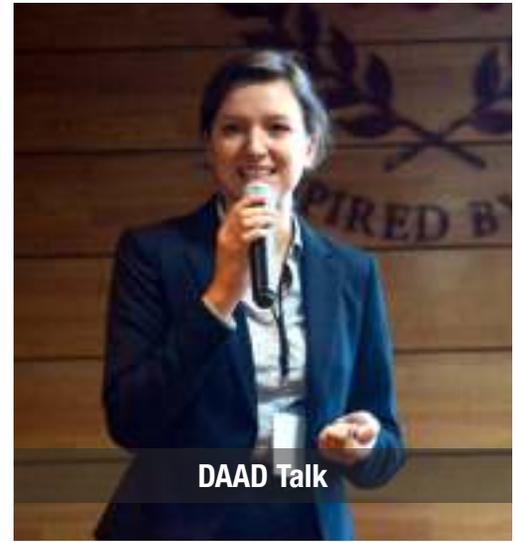

The challenging workshops set up for Day 2 of IGCLA included an Interventional Radiology workshop which ignited a spark in the delegates' eyes, whereas the Panacea quiz saw a battle of the wits. The Animal Experimentation, Bowel Anastomosis and Brainwaves workshops imparted an understanding no textbook can offer. The DAAD talk provided a valuable insight to pursuing a master's degree in Germany.

Talk by Dr. Vinamrita Singh on Applied Physics

Day 3

A dignified board of officials inaugurated the Indo German Metabolic Meet on the third day of the convention. Pedigree Analysis, Metabolic Screening and Chromatography Mass Spectroscopy were explored by the delegates as part of the IGMM workshops. The festive gala dinner was a celebration of music accompanied by palatable delicacies as delegates from around the world swayed to a rhythm that united them all.

Talk by Dr. Grzegorz Kubik from California Institute of Technology

Day 4

An array of exemplary orators took to the stage, as they passionately described their research in the numerous branches of science. Award winners were felicitated at the closing ceremony and a vote of thanks was offered to the committee and everyone who made the event possible. The delegates bid adieu to Manipal with a renewed sense of curiosity and an unquenchable thirst for knowledge.

VERVE²⁰¹⁸

KMCs inter-semester cultural and sports competition commenced on March 2, 2018 with the theme this year being, 'A Trip to the 90s'. Students eagerly awaited this since it gave them a platform to showcase their enumerable talents, allowed them to try new things and to prove which one semester ruled them all. This was the first Verve for second years as well as first years, so spirits were high all around.

90s Quiz

Day 1

The first day of Verve kicked off with a quiz on 90s trivia, creative cartoons on 'An Evening in the 90s', the riveting emotions of poets on 'Nostalgia', an engaging battle of wits in Potpourri. The opening ceremony involved performances by residents of Asare and inspiring speeches, followed by an intense tug of war between the semesters. Melodious notes in instrumental solo, and graceful, intricate movements of Western dance in Duet, Solo and Group brought an end to the day.

Day 2

The second day of Verve was host to wits matched by words exchanged over gleaming debate floors, by art flowing over the human visage, by twin voices twining across strings, and by feet drumming out the rhythms of varied Eastern dances, both solo and in perfectly co-ordinated groups. As the evening drew to a close, combining all the skills that their students had showcased, the myriad departments of KMC went head to head in distinctly memorable performances.

Day 4

The final day of Verve 2018 was marked with revelry and merriment. Greens witnessed serenades by classically trained singers, impromptu moves of veteran dancers and a show of glam and glitz. The previous council and the Batch of 2014 walked the ramp, perhaps one last time, bittersweet emotions running through the scores of students.

Student Council 2017 - 18

The Student Council isn't just an organization. It functions just like a human body, in perfect synchrony, all components working together towards a unified goal. The council is the voice of the student body and are responsible for their welfare. Apart from that, they do know how to put together an amazing fest.

PRANAV RAJASEKHAR

President

Contemporary and futuristic academies of higher education tend to have a powerful student voice, which also influences the functioning of the institution in a big way. The Student Council 2017-18 was formed echoing this belief.

My journey in this prestigious institution has been a rather memorable one. My success graph showed a gradual and symmetric gradation, until there was a sudden hike in it. This was the moment when I was elected to hold the position of the President of the Student Council. They say that no load is heavier than that of expectations; and I was certainly in for a great challenge.

It all started in September, 2014 as I watched the then President, Student Council, Dr. Akshay Dhanda conduct the Orientation Programme for us Freshers and later the Personality Development Programme (the not so personal interview round) prior to the Freshers' Evening. I saw not the power, prestige, influence or responsibilities that he carried but only the adoration and respect that he earned.

In that moment, I found my place; I knew what I wanted. And thirty months later, came in the WhatsApp message I had been waiting to see: "We are pleased to announce the results of the 2017 Student Council Elections..."

My experience in the Council has been an enriching one. Our year kicked off with the College Day- Extollo 2017, which witnessed faculty and students come together to celebrate the success of the institution in the previous academic year.

On April 24 th 2017, we inaugurated KMC Manipal's first ever Inter-Collegiate Home Fest- INVICTUS 2017, which catered to over a thousand cultural, sports and literary enthusiasts alike. We also sent our students to several out-station research conferences, sports and cultural fests, among which Autumn Muse 2017, hosted by St. John's Medical College, Bangalore was the highlight, at which our students made us proud by winning several accolades.

Organizing a home fest isn't a piece of cake. I would be lying if I said Invictus didn't give me some horrid nightmares. But who better than my 11 "GreenMango Core Council" Angels to keep me sane through all of it; Poojitha Shetty with her innocence and dedication to work; Kartikeya with his super friendly attitude, love for vegetarian food and inappropriate sense of humor always "making people uncomfortable"; Madam Nair with her Owls and Intra-MAHE connections; Grama-No Drama, only Shantala; Shreya-the epitome of "Silence speaks louder than words"; Divya and her love for Rupiya; Arundhati and her love for Public Speaking; Batra with an immense love for his committee (Insert 'Fire' Emoticon) and an amazing first name; Raghav, the real OG of our group; Sakshi, with her 'authoritative' leadership qualities and extreme reliability; and finally the incredible Chief of this Magazine, Meghna. Well, what can I say...thank you for letting me exceed the word limit. It's truly a blessing to have had worked with such a smooth and efficient team! All the meetings in the Student Activity Centre will forever be cherished. Congratulations to all the Committees of the Student Council, Extended Council and other Student Bodies, for their exemplary work throughout the past year.

Having been a part of the Cultural Committee, 2015 and later the Fine Arts Committee, 2016, I had learned quite a lot from my seniors and batchmates, both in and out of work. I would like to thank the Core Council 2016-17, for supporting and guiding us through thick and thin last year.

I am forever indebted to my Dean, Dr. Pragna Rao, who praised me when I was successful, consoled me when I failed, corrected me when I was wrong and above all, taught me to be a performer in adversity. Special thanks to Dr. Antony D'Souza, former Associate Dean, for inspiring me to adopt a more pleasant approach to the challenges I faced and for being the ultimate pillar of support for all of us. I would like to extend my deepest sense of gratitude to Dr. Rajgopal Shenoy and Dr. Sharath Rao, Associate Deans, KMC, Manipal, the Staff Advisors, the Faculty and the entire Administrative Staff, for motivating me to go the extra mile in search of excellence. I am thankful to my family and friends for their limitless love, affection, confidence and for always having my back. Most importantly, I would like to thank the entire student fraternity of KMC Manipal, for believing in me and for the constant support and respect they have bestowed upon me.

The final test of a leader is that he leaves behind the conviction and the will to carry on in others. Never be afraid to try something new. Remember, amateurs built the Ark; professionals built the Titanic. So step out of your comfort zone and make the world your oyster!

Pranav Rajasekhar
President, Student Council

KARTIKEYA ATREY

Vice President, Administration

'A leader is one who knows the way, goes the way and thereafter shows the way.' -John C. Maxwell

Right from the first day of college, after interacting with the then existing student council, it became my ambition to be a part of this dignified body.

My journey began from first year itself as I was elected the Class Representative of my batch. Then I became a member of the Editorial board, where I worked with some of the most creative and hard-working people I know. I grabbed many opportunities to learn, to excel, and to deliver. Third year into college, with the love and blessings of my parents, my teachers and the unconditional support of all of my friends and the entire KMC fraternity, came the most awaited moment of my life in KMC so far- I was elected the Vice President of Administration of KMC Student Council 2017-2018.

With a dynamic president like Pranav and a hard-working co-Vice President as Poojitha, along with the entire core council, we managed to pull off a great year by laying down the foundation of INVICTUS, KMCs first inter-collegiate cultural and sports extravaganza. There's a lot to do when you are a part of the student body of an institution of such a great repute. My post was accompanied by a lot of responsibilities like the grievance redressal committee, student advisory boards of various domains of the University, cultural and sports fests organized by our college as well as to manage our end at fests organized by other colleges.

To be a part of the Executive Council along with Pranav R., Poojitha, Aditya, Anushka and Shreya, who made the functioning smooth and organized, was indeed an honor. But what is a team without its members? To always answer to their responsibilities and help us were Pranav Batra, Raghav, Divya, Sakshi, Meghna and Arundhati who were some of the best people to share the office with. A very special thanks to the Dean, Dr. Pragna Rao, for her prompt support and encouragement throughout the year, the Associate Deans, and the entire office staff.

'Success and Failure are both excellent teachers, you might sometimes be put down even if you're right, be your own judge and do what needs to be done to bring out the best in you!' All the best wishes to the readers!

POOJITHA S.

Vice President, Programming

A major transition occurred when I was elected as the class representative, during our 3rd semester. From circulating messages on the group, acting as a senate between the students and the then council, to coordinating with the college office for batch related-issues, myself and my co-CR deputized for our batchmates. In addition to this, I was selected as a member of the Social Welfare Committee in the successive semester, which added to my learning experience in making a difference in the society. Inspired by our seniors, this is when I realized, I'd wish to pursue this responsibility at a higher level and stood for the Student Council 2017-18 elections. Firstly, I'd like to express my gratitude to Dean Ma'am & committee and, all the students for trusting my abilities and having elected me as the Vice-President.

In my tenure as the VP-Head of Programming, my work mainly involved drafting event schedules by coordinating between various student committees, running to the KMC office (council members' second home) umpteen number of times with numerous permission letters, arranging for participation in different inter-collegiate and, representing KMC in various events along with my constant pillars of support – President, Pranav and co-VP Kartikeya (Super core as we call ourselves). It's been a great pleasure to work with 12 uniquely talented core council members, striving for the same goal of making our college reach greater heights. One of the many steps we took to achieve the same is, 'INVICTUS', KMC's very own annual sports (MIST), cultural cum literary (VIBES) fest. The preparations began from scratch, one and half months before the actual event. Coming together is the beginning, keeping together is progress, and working together is a success: this was personified by our organizing committee. The council experience was indeed a roller-coaster ride, with many ups and downs, compliments and criticisms, new friendships and a joint-learning experience. Not to forget, an unwavering amount of confidence, motivation and moral strength from my family and close friends.

An old Chinese adage says 'When the winds of change blow, some people build walls and others build windmills'. Change is inevitable, so make good use of the opportunities that lie ahead of you, to mold yourselves in the right direction and become great doctors. Here's wishing all the very best to the upcoming council to reach the newer zenith.

ADITYA GRAMA

Joint Secretary

Attendance - The first word that comes to everybody's mind when they think of the Joint Secretary. That was pretty much all I thought the post would be about when I applied. If anybody had told me that I would have been a part of the Student Council when I was in my first year, I wouldn't have believed them. It took me an extremely long time to get out of my bubble of my room and TV shows, the credit for which goes to being in an environment like Manipal. One the main reasons that I love Manipal is the endless number of opportunities to participate in extracurricular activities. Being a part of the Student Council was one of the best experiences I've ever had.

Soon after I was elected into the post, I realised just how much work was needed to make sure that everyone gets their attendance, even though there were two of us. Being just the right amount of lazy makes you want to find an easier way to complete work. So, I collaborated with my cousin to create a website to automatically compile all the claims, so that we, the students, didn't have to. I was also approached by some juniors - Sidharth, Avinash, Ashwin, and Swara, who created the website that is currently in use which saves everybody a lot of time and makes the process a lot smoother.

My proudest moment being in the council was when we worked together and set our differences aside in organising Invictus-the brainchild of Student Council, 2017, and the biggest fest organised by KMC, Manipal till date. The Joint Secretaries were tasked with organising accommodations for all the teams; it made attendance seem like a piece of cake! Despite the sleepless nights and the participation fatigue, it was one of the most satisfying experiences. I couldn't have done it without an amazing team to help me throughout. I would like to end by thanking the rest of the Student Council for making it one of the most memorable experiences of my life. Looking back, if I was asked to do it again, I would do it 10/10 times.

SHREYA SIVARAMKUMAR

Joint Secretary

Cool propaganda, funky taglines, ultimate photoshopping skills and publicity strategies that were on point to gain maximum support, we really did put our politicians to shame! In all my experiences as a medical student, this was the first time we taxed our brains for creative ideas rather than cramming facts and figures from textbooks. The brainstorming sessions with friends still remains to be one of the most memorable aspects of my journey. Kudos to all their efforts in helping me get through the elections successfully.

Being elected as a joint secretary meant taking responsibility for the attendance of students which is a big deal especially in a medical college like ours. Compiling claims had been an extremely tedious process for all the councils in the past including ours for a very long time until a couple of our juniors came up with a new software to do the same; and although it still continued to be tasking in certain ways, the procedure had been simplified to a great extent. Newer attempts, inputs, acknowledgment and constant feedback from fellow students had been extremely crucial in guiding us through the whole tenure.

With regular work being carried out, the council decided to step up the game by challenging itself with jobs beyond each person's comfort zone during Invictus; mine being transportation incharge. Working late at night drafting schedules for the next day, negotiating with drivers, allocating work tested my organization skills to the breakpoint. Though the stressful deadlines pushed us beyond limits and made us succumb to pressure at times, the experience was worth it all and will forever be cherished by the council which, irrespective of the various constraints, stood united at all times and made the event a huge success.

Though it had its ups and downs, being an integral part of the council was indeed an amazing and a wonderful learning experience and I would like to thank everyone who made my journey eventful. Our best wishes to the forthcoming council not only to keep up the standards but also to take it a notch higher.

ANUSHKA NAIR

General Secretary

They say a leader is only as good as their membership, in which case I like my standing because I have been privileged to work with an amazing Core Council. It is this sense of family, combined with our acquisition of personal attributes through involvements in academic, cultural and extracurricular programs, from which I have grown to understand the importance of relationships, of communication, and of teamwork. Over time, with increased emphasis on personal autonomy, we have learnt to lead ourselves. And through this capacity, we now hold the key to lead others.

2017 has been a year of immense learning for me. From organizing Invictus in its charter run as a host fest, to chill sessions with my lovely team of class representatives, my term as General Secretary of KMC has been a film reel of exhilarating experiences all of which have helped me grow as individual and better the leader in me. I can definitely say that from my term, I've developed my communication skills from our ritual visits to the office, requesting for holidays, permissions, signatures and the list goes on, my social skills from the diversely talented minds I've encountered during my term and it has been the most humbling experience working towards building a vibrant campus atmosphere with each and every one of you all.

As I reflect on this past year, everything has been simply incredible. None of it would've been possible or as enjoyable a journey though, if it weren't for my owls – our batch Class Representatives. Working with each and every one of them is what has made all of it worthwhile. Thank you Devesh, Ohviya, Prasiddh, Vikramaditya, Apoorva, Aarthi, Rohini, Aniket, Krishanu, Sharvari, Taruni, Pushan, Madhur, Asmita, Sabin, Rishabh, Shuchi and Milli, for being the best team and performing every task with such efficiency, while confirming with all my emojis sans complaints.

In my campaign last year, I promised to serve, to assist, and to be your friend. I do believe I have achieved this to the best of my ability and will continue working to do so. It's been a great year. Cheers to an even better one!

ARUNDHATI WARIAR

Judicial Secretary

The life of a KMC student is luxuriant with an inspiring Dean, knowledgeable professors, well-equipped laboratories, exceptional students, comfortable hostels, scenic surroundings and adorable animals. Rarely do we feel that we are resorting to the dreaded lives in colleges that we hear about when we make the decision to become medical students. However, the Student Council introduced a new committee last year to ensure that the nuts and bolts of the system were intact for optimal functioning.

My decision to run for the post of Judicial Secretary was influenced by the inspiring work done by my predecessor and the scope to add quality to the lives of my fellow students. This offered me an opportunity to resolve disputes amicably and make grievances heard between the students and the Council, to work with the hostel committees and the Chief Warden to smoothen the functioning in the hostels and to promote physical and psychological well-being in the campus by reducing conflicts.

“Depression—Let’s talk” is the slogan for World Health Day 2017. Therefore, in the same spirit, we decided to raise awareness about depression, one of the main reasons of internal conflict especially among medical students who are exposed to tremendous levels of stress and solitude. With the support of the departments of Community Medicine and Psychiatry and the Student Support Centre, we organized “Reaching Within”, a mental health awareness programme. The committee was rigorously involved in all its activities and this initiative was personally momentous for me as well.

Here's to the nights that turned into mornings with the friends who turned into family- Anonymous

The transition in the role and responsibilities of being a member of the Sports Committee to a Judicial Secretary was daunting and would have been difficult if not for the encouragement provided by my fellow Core Members. Being a part of the Core Council was fun because of the comradery, the endless discussions, and the merciless leg-pulling.

As a member, leave be captain, of any sports team, leave be basketball, it is difficult to imagine more assurance and love among any other teams. Little did I know I was to be part of a likewise team in the Council. The entertaining banter between Anirudh, Anurupa and Annapoorna, the steadily supportive Roshini and Aishwarya and the affectionate yet sassy Priyanka deserve foremost mention if I were to relive my Judicial Committee team.

Transforming experiences into memories is a nostalgic adventure. Looking back, the last year has been one of the best in my time here in KMC. Looking forward, I wish the new Secretary the very best of times and luck. I have merely to say one line to express the experience- As a doctor, one gets to better people's lives, as a Judicial Secretary or any Student Council member, one gets to better the lives of those who better people's lives.

DIVYA NAYAR

Finance Secretary

It has been a year since I was elected to the post of Finance Secretary, and what a year it was. Strenuous, frustrating, and challenging at times, but ultimately rewarding beyond measure.

I had been a part of the Sports Committee for the prior year, and the skills I picked up as a member of that committee were instrumental in making me a confident candidate for the elections.

As I stepped into the robes of Finance Secretary, my predecessor

Dr. Jaibir, in addition to Dr. Lee and Dr. Manish, helped me learn the ropes. I gained an understanding of how to deal with the problems placed before me systematically. However, all my efforts would have been in vain without the support of my amazing group of peers. The Core Council shared my burden right from the get-go. Wherever they could, they reduced my burden. It has been an enlightening experience and I am glad to have had it along with each member of the Core Council of 2017.

A big shout out to my committee members for aiding me in my uphill climb. Whenever I was running low on fuel, they were my reserve of strength. Khushbu has helped me deal with any and all situations that arose, and was the one who kept the lights on in my absence.

Ayushi sat with me in Indira through countless nights making sure the accounts were balanced and handled transportation for our first Inter-Collegiate Sports cum Cultural Fest: Invictus. Neha was at my side at the oddest hours, counting money and making records, and Suhan was always ready to take up any burden and any responsibility placed upon his shoulders. All of them were indispensable to our shared success.

A big shout out to Pushan for doing most of the ground work, coming up with ingenious solutions, and taking up the job of ferrying contestants to their accommodation in the wee hours of the morning.

They were at my side sinking long hours into work without complaint. They sat with me at the registration desks of Invictus, through moonlight and sunshine. When I fretted over deficits in the account, they racked their brains together to balance the credits and debits. I could not have asked for a better team, and having worked with them, I sure wouldn't ever ask for a different one.

As I sign off as Financial Secretary 2017, I would like to wish the best of luck to all my committee members as well as my successor, whoever that might be. It is not an easy journey, being a part of the Council while simultaneously being a medical student. My parting advice would be to appreciate the people you walk this path with, because I can assure you from my experience, it will be a year to remember that will help you grow in ways you couldn't ever have imagined.

SAKSHI RAMNANI

Fine Arts Secretary

"Art enables us to find ourselves and lose ourselves at the same time", that's how I started my Council Handover speech and here I am a year later, so overwhelmed. There were so many firsts, some good and some that brought lessons along. There were things I didn't know I was signing up for, and some experiences I will dearly cherish. What started with a fun campaigning evening with my friends before the elections is ending with an exciting Verve, and all that was in between was a crazy roller coaster ride.

At every step, I had by my side my team of 28, the Fine Arts Committee 2017, each one different from the others but so talented and creative. One of the many things we introduced this year were independent teams that would represent KMC in all inter-collegiate competitions for the year. They were headed by efficient captains and vice captains who made work so much easier. All throughout March and April, I spent more time in SAC than in my room. The nights were long, T-shirt painting and super glue fingers became routine and Planet Cafe burgers and oreo shakes became our staple diet. There were highlights like Autumn Muse and Extollo, College Annual day and we were glad to continue the tradition of zealously participating in Utsav and hosting the cultural, literary and art society sessions.

It's really important to have those people in your life who have your back and push you to be better, Pranav and Simran have been those people for me, handled things and reached out whenever and wherever I couldn't. I was lucky to be a part of a very supportive core council. The 12 of us worked day in and out for KMC's first very own inter-collegiate fest: Invictus. Invictus means unconquered, but for us it meant a gorgeous brochure, heartwarming decor and most importantly, conquering an almost smooth coordination between all the committees. I couldn't be more thankful to Team Invictus for that. Dr. Chandni Gupta is, hands down, the most approachable and understanding faculty advisor there is.

I believe that each one of us is the sum total of every moment we've ever experienced with all the people we've ever known, and this year even though it wasn't all sunshine, was a great experience with some wonderful people. Shoutout to Saumya, Priya and Ambar for keeping me sane and Sachi, Arundhati, Divyanshi and Saptarshi for making sure I was never short on laughter. Cheers!

PRANAV BATRA

Sports Secretary

Kasturba Medical College is not just a college, it is a land of opportunity, diversity and most importantly, virtue. Here I became a medical student, a learner, a teammate and was privileged enough to be the Sports Secretary of batch of 2020. (Thankful to all the voters!)

When we joined the college, we were given an orientation by the presiding Student Council and their words left me spellbound. They inspired us to achieve great things like they did, and for me this opportunity was given by the Sports committee. My passion for sports drew me closer to our beloved 'sports comm'. Over the course of these 2 years, this Committee turned into a family and just like any family, we had our ups and downs. There were obstacles along the way but overcoming them was made enjoyable by my committee and I am really grateful towards the team. Memories made during this journey from night trips during Invictus, late night planning with my talented batchmates, crashing at Lella's place for late night meetings will remain unforgettable.

Organizing our fest was not a one man show. It was the constant effort of a team— our HARAAMcore committee. We had a dedicated president, my namesake Pranav (whom I have personally come to admire for his leadership), and equally dedicated Core Council with VPs Poojitha and Atreya (aka Cheeku), Grama, Shreya, Meghna, Rgv (OG), Sakshi, Aru, Anushka, Divya (PS- To all people left, I love you all!), all of whom have been amazing to work with. Synchrony in the core committee was the gist of a great council, a great team and a great fest INVICTUS and I am glad that we achieved it together.

As the Sports Secretary, I am proud to say that we have raised the bar of MIST this year and with the council laid the foundation of greatness for the future Invictus. Due to the constant hard work of months (my boy Vidarshan's charm!) MIST 2017 saw an increase in footfall like never before! Our innovations were integrated; we conducted KMCs first ever KMC Premier League (courtesy Mohsin), introduced Sports Quiz, Fifa and most importantly managed to form various girls' sports teams and conducted tournaments for them. My great appreciation to all our sports captains and the teams who have managed to get us trophies in all the tournaments.

Being the sports secretary has given me a rich experience and was a boon to my personal development. It was one of the toughest journeys I have been on, but I will never regret making this decision. The support given by my friends, committee, seniors, council, batchmates, juniors was unparalleled and I'm forever grateful to them.

In the end, I hope I have managed to inspire the juniors like I was, by the Student Council of 2014.

RAGHAV CHAWLA

Joint Sports Secretary

Since I was a child, I have been enthusiastic about sports. What drew me into the glittering world of sports was not just playing the sport but also the passion, drama and effort that went hand in hand with arranging the event. It was perhaps this intriguing aspect of the logistics of the game that made me audition for the Sports Committee in my first year of college.

Owing to some admission difficulties, I joined the regular classes two weeks later than my peers. The Sports Committee served as an excellent platform to network and get to personally introduce myself to my peers as well as my seniors. It was not the terrifying experience I had made it out to be in my mind; in fact the members of the committee welcomed me with open arms. I had become a member of this family and a part of something much larger than myself in just one evening. The members of the Sports Committee became my first friends, and with each memory I made, they became my best friends too.

As I end my tenure as Joint Sports Secretary, I know without a doubt that the first memory of college that pops into my head is that of the Sports Committee. 2 years as a member and 1 year as the Joint Sports Secretary have given me countless experiences. I will miss the trips, the committee dinners, the late nights at KMC Greens, and the spark of conversation turning into a torrid blaze of ideas. As I look back, with my committee at my side, my cup truly overflows.

By definition, families share the same hearth and roof. Here, at Sports Committee, we share the same passion and hunger for success. Invictus was our greatest challenge till date. Situations got tense and sometimes, out of hand on numerous occasions. But, at the end of the day, we always came together and joked about it. This is what is unique about us; we leave our egos outside the door. This is what makes us such a strong team, a team that we like to call our family.

The ease with which I assumed my responsibilities would not have been possible without the guiding hand of Dr. Vishal, Dr. Jaiswal, and Dr. Shetty, who are not only my predecessors, but also my brothers in arms. I wish them the best of luck for the future. A salute to Pranav, the President, who gave our committee the direction to be able to pull off each event we organized with grace and aplomb. So much respect for my brother, Pranav Batra, the Sports Secretary, who did so much for the committee and was a constant driving force. As a committee, we had our squabbles, but in the end, it was all about the love for the game, the passion and each other.

MEGHNA SIVAKUMAR

Editor-in-Chief

Real talk.

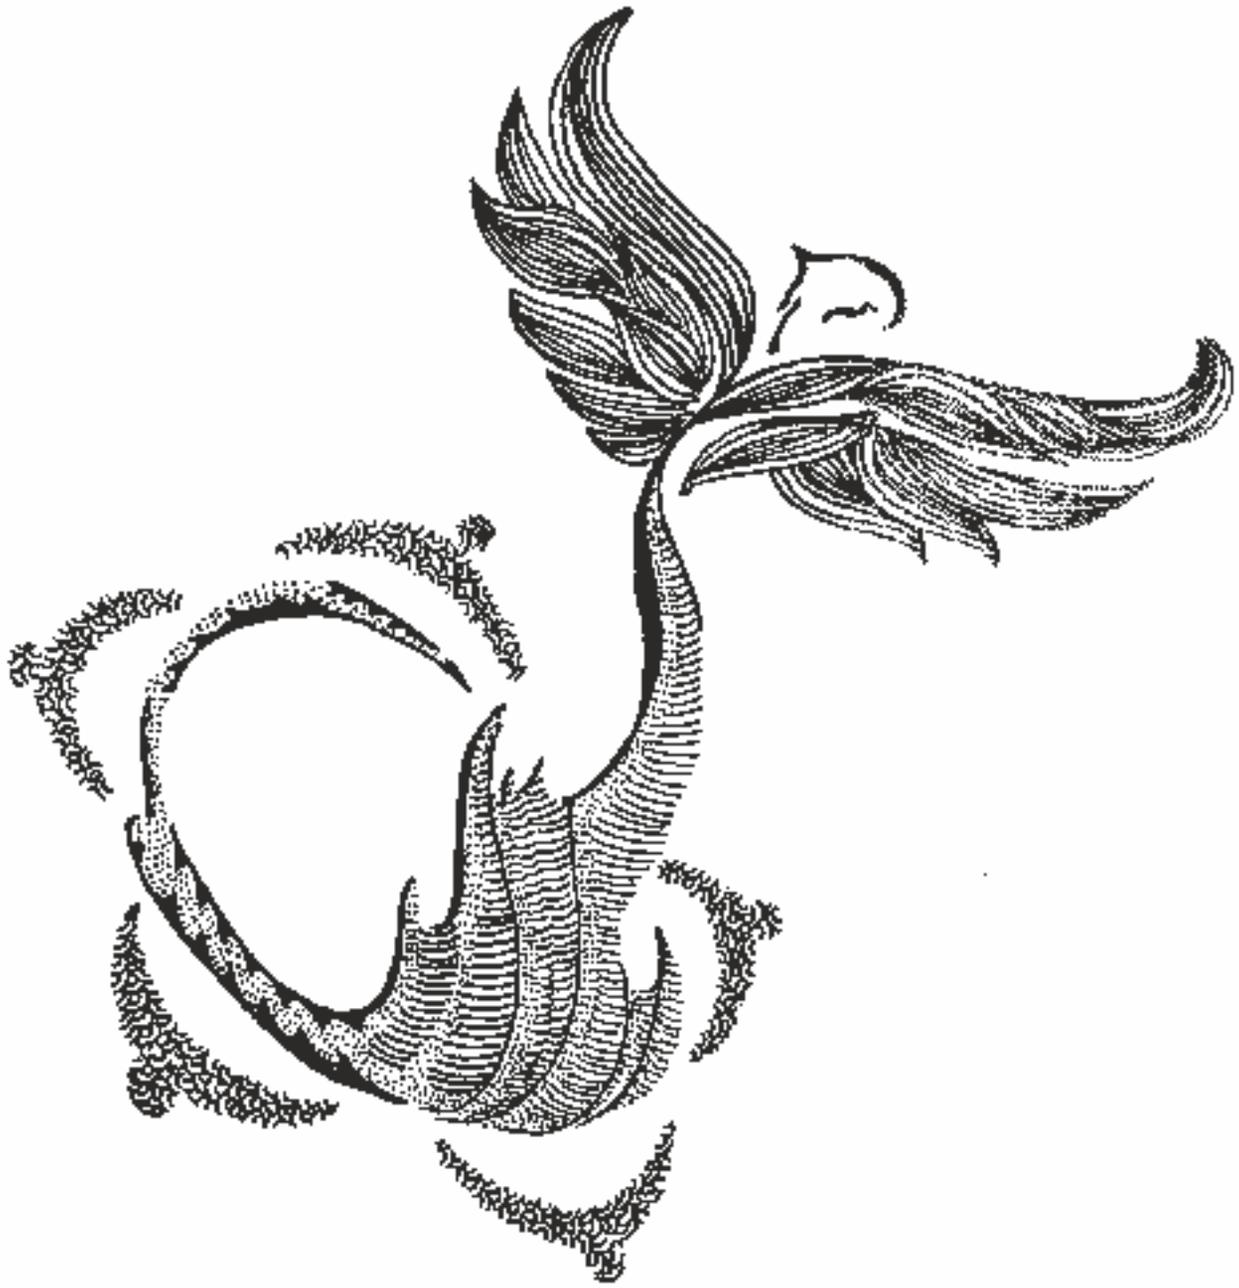

I've been experiencing the grass is greener on the other side syndrome for the past few years. (I suppose it's called FOMO now?) While I thoroughly enjoyed being in the Editorial Board the first two years, it never felt like family, and I was always envious of people who were part of other committees that were united and continued to meet up and hang out two years after its completion. This year was the first time I felt a true sense of unity and of family within the Editorial Board. I wish I could take credit (and believe me, I've tried) for the talented and caring individuals in the committee, but I can't. It might have been fate, or maybe luck, but whatever it was, I'm so grateful to have been able to work with such an amazing group of individuals. This committee has stood by my side during times of difficulty and through times of triumph. They've forgiven me for the mistakes that I've made this past year, and have accepted me even if I had a few shortcomings. To the Editorial Board – Thank you.

My year with the Student Council was definitely eye-opening. Poojitha, Kartikeya, Grama, Shreya, Anushka, Arundhati, Divya, Batra, and Raghav - I'm glad to have been able to work with all of you. Pranav – our friendship had always been superficial prior to this year so I'm glad that we've reached a new level. Thanks for listening to my rants and for giving us a chance. Sakshi – one of my goals this year was to maintain minimal inter-committee drama, but our relationship has surpassed that of colleagues. I've gained a friend and I'm grateful for that.

To Savani – thank you for always being there for me, for listening to my rants, and for helping me maintain balance whenever I needed it. To Armaan – words simply can't describe the asset you've been. It was great working with a fellow Editor-in-Chief.

To a special group of people in the committee – the ones that comprise the Mini Edboard WhatsApp group. Neni, Disha, Rohini and Aniket, you guys were the first people to campaign for me when I decided to run for other positions. You guys were also the first people to stand by my side and support my bid to reconstruct the Editorial Board when it was nothing. I honestly would not have been able to do any of it without you. You all have also been incredible in your positions as Associate Editors and Heads of Photography. Thank you for everything.

To the Student Body, if I could pass on something I learned this year, is that you should never be afraid to push the boundaries, and to change the parameters of your being. The comfort zone hinders growth, and in order to truly achieve your best self, you need to walk as far away as possible from it.

CUTTING EDGE

President - Khushboo Agarwal

Vice President - Jahnvi Srivastava

Angad Gummaraju, Anju Pradeep, Anoush Sardesai Sadat, Anvit Minocha, Avinav Gupta, Meghna Sivakumar, Neelambara Srivastava, Pranav Mishra, Reetika Ramanathan, Vipul Tripathi, Zehra Siddiqui

Ever since its inception by a group of medical students motivated by their ambition to excel and better themselves as future practitioners, Cutting Edge, the student surgical society of KMC Manipal, has gone from strength to strength, widened its reach immensely, and achieved all that the founding members had wished to achieve, even more, in fact.

For the year 2017, the committee assumed its duties in the month of February after a set of grueling interviews. The President elect was Khushboo Agarwal, who was provided with able assistance by her Vice President Jahnvi Srivastava and General Secretary Pranav Mishra. The society's member base saw a whopping 166 new registrations to what is called Group 'E'. Another significant change that this year saw was the shift in the responsibility of being the Honorary President from the hands of Dr. Sampath Kumar (Dept of General Surgery), someone who has been at the heart of all of Cutting Edge's achievements, to Dr. Vivek Pandey (Dept of Orthopedics), an able mentor with brilliant ideas. In the same vogue as always, the committee carried out with aplomb, its three principle areas of work: workshops, lectures, and Chirurgia.

WORKSHOPS: The purpose of the workshops is to deliver an all-round understanding of the subject to the participants, inclusive of theory and practical skills. To make sure that most of the basic surgical skills are imparted to the students, and that the same corresponds well with their level of understanding based on their semester, there is a division of the syllabus into four Units. The turnout for the workshops, especially the Unit 1 workshops (attended principally by the 1st year students), saw an impressive surge, reaching numbers of 160+ attendees. The material used by Cutting Edge for teaching suturing is so well received that the committee catered to the Basic Sutures Workshop of 'Phoenix 2017', an undergraduate medical conference conducted by AJ Institute of Medical Sciences, Mangalore. There are ongoing talks initiated by this year's committee to apply for a patent for the idea.

LECTURES: These facilitate interaction between the aspiring surgeons and whom they aspire to be, thus providing a platform for the students to put forth their inquisitive queries to the surgeons who have the answers. This year's committee organized an enlightening session by the renowned Dr. Meenakshi Ahuja, whose knowledge on what it is like to practice Obstetrics and Gynecology helped numerous students who eyed a future in the same.

CHIRURGIA: This is Cutting Edge's amalgamation of knowledge and festivities, which serves as the pinnacle of all its efforts every year. Preceded by effective publicity (special mention to the active and interesting Facebook page), the event unfurled over a span of two days, the 6th and 7th of September, and saw massive support and participation from members and non-members alike. The events included a talk by Dr. Vivek Pandey about his journey as an Orthopedic surgeon, the Tracheostomy workshop with clay models, the suture marathon, where students raced to the finish line with their suturing capabilities, Enigma: The Mystery Room, which required teams of three to solve their way out of the room in 20 minutes, and the crowning glory, the Treasure Hunt, which saw intense competition among more than 35 teams. The fest was highly successful and much appreciated.

Apart from these, Cutting Edge also collaborated with IGCLA in conducting a workshop on Basic Sutures and Knots, followed by Bowel Anastomosis, both of which were met with approbation. Another initiative undertaken was the circulation of the Intern questionnaire, the purpose of which was to gauge the usefulness of the skills imparted by the Cutting Edge syllabus as assimilated from those exposed to hands-on clinical work, the interns who were members of the society. Finally, the last event organized by the committee was 'The Incision Inquisition', a mind bending quiz organized by Cutting Edge committee alumni Dr. Talha Ahmed and Dr. Tirth Nayan Vasa, veterans in the world of quizzing.

IQMU

Radhika Mundayur, Bijoyini Bose, Vinod Nayak, Pragna Rao, Shobha Kamath, Nandini Majumdar, Dharini Prasad, Harsh Kahlon, Moneshwar Rao, Veeradithya Ballal, Aashna Bhatia, Roshini Chandrasekhar, Radha Jha, Sharvari Patra, Diya Varghese, Tasnim Shajahan, Neha Kiran, Ameya Kale, Manthan Arora, Shreya Jayaram, Rukmoni Balasubramaniam, Gopika Suresh, Avanti Singh, Shalaka Atre, Vaishnavi Harikumar, Niyati Jain, Swara Kulkarni, Aishwarya Kapoor, Sanya Parakh, Sara Regina, Disha Patra, Neha Mittal, Sneha Makkapati, Ishita Bansal, Hunar Ghai, Sanam Gavankar, Rhea Chandwani, Deepshika Arora, Resham Bhatia, Sutanka Sujaini, Hannah Mathew, Kshitij Pillai, Madhur Madhav Mundra, Tarun Selvarajan, Zeshan Syed, Rishi Govind, Pushan Aggarwal, Vasudev Sinha, Swamy Kanuri, Anirudh Arora, KP Ashwin, Kunal Jaiswal, Charan Madhav, Vinay Reddy, Harish Srinivasan, Sushruth Palepu.

The International Quiz for Medical Undergraduates (IQMU) is a multi-tier quiz hosted by Kasturba Medical College, the first of which was a grand success in 2017. It was launched with the aim of providing a wholesome academic and cultural experience with drama, dance and fun, in the span of four days. The second quiz will be held from 7th to 10th March, 2018.

The sub-committees of IQMU work in conjunction with each other to ensure that the entire event runs smoothly. They will be compiling clinical vignettes and interesting questions from various departments of Kasturba Hospital to create a quiz that encourages one to apply knowledge and think out of the box.

In collaboration with student clubs such as Cutting Edge, Scientia Medicina, Tempus Prestia, Justitia and more, IQMU will present a new round of engaging workshops that provides a hands-on experience in their respective fields, a veritable utopia for the inquisitive mind! A medical hackathon has also been introduced this year. Moreover, they will be hosting a Gala Night, filled with fun and dance, for the participants to get to know each other better.

The committee ultimately aims to provide a holistic exchange experience for the participants, and become an international organisation that engages competitive medical students in the process. Their mission is to produce long-lasting and fruitful relationships among future doctors from around the globe whilst facilitating the development of well-rounded physicians.

JUSTITIA

President - Mr. Moneshwar Rao

Vice President - Ms. Ohviya Ramasundaram

Moneshwar Rao, Shraddha Murali, Meera Gopal, Ohviya Ramasundaram,
Anirudh Gupta

Justitia is the Forensic Science Society of KMC, Manipal and is a student initiative in collaboration with the Department of Forensic Medicine and Toxicology. Officially established as a society on 15th September 2016, Justitia hopes to offer a 'beyond-the-book' comprehension of the subject and offers students an opportunity to experience the real life applications of Forensic Medicine.

Since its inception, Justitia has conducted sessions such as a talk by the Superintendent of Police and visits to the District Court and the regional Forensic Science Laboratory. Additionally, Justitia contributes to Compos Mentis and CSI: Manipal, the annual Forensic Science Quiz, organized and hosted by KMC, Manipal. The legion of activities organized by Justitia are directed at creating awareness among future doctors about medicolegal predicaments and equipping them to deal with them.

Justitia is led by a small 5 member committee consisting of

Mr. Moneshwar Rao - President

Ms. Ohviya Ramasundaram - Vice President

Ms. Shraddha Murali - Secretary

Ms. Meera Gopal - Joint Secretary

Mr. Anirudh Gupta - Treasurer

Court Visits

On March 11 2017, Justitia organized a visit to Kundapura District Court. The session was aimed at providing students a chance to observe court proceedings including oath taking, cross examination etc.

Crime Scene Visits

Justitia provided interested students an opportunity to accompany the KMC Forensic Team and police officials to scenes of crimes. The students got an opportunity to witness first-hand, the nitty-gritty of crime scene preservation, evidence collection and investigative procedures.

Impressions

Justitia organized a workshop on dactylography, aptly named 'Impressions', conducted by the 'Forensis' Team from the Dept. of Forensic Science and Criminology- School of Social Work, Mangalore. The session introduced the students to different patterns and subtypes of fingerprints and included a demonstration on fingerprinting techniques, which gave the students a closer glimpse into the world of Dactylography.

CSI: Manipal

On 21st September, 2017, Justitia organized CSI: Manipal, a first of its kind Investigative competition in association with the Dept. of Forensic Medicine and Toxicology. The competition saw participants- Policemen and Medical students alike, test their skills of logic and deductive reasoning.

SCIENTIA MEDICINA

Nivedita Zakhar, Reem Hunain, Tanmay Agarwal, Apoorva Dindukurthi, Suchita Reddy, Poorvaprabha Patil, Gautam Karthikeyan, Tasnim Shajahan, Anwasha Das, Bhavya Mody, Krishanu Mukhopadhyay

Scientia Medicina is a club dedicated to medicine, with the objective of letting students know that medicine is not just the learning of theoretical knowledge but its applications too.

USMLE TRUMPED-DR. CHINMAYEE P

Dr. Chinmayee, an esteemed KMC Alumnus, cleared her USM LE Step 1 with an awe-inspiring percentile of 99. In order to share her methods, study tips and help the students of KMC, Scientia Medicina organized a talk where she explained the various steps in detail and also offered her suggestions and perspective about how to prepare and when to attempt the examination. She also spoke about observership, clerkship and exchange programs in brief.

Following the talk was a 10 minute question and answer session where the enthusiastic students asked about taking a break during their internship, electives, etc.

ZONE OF DISCOMFORT

Dr. Anoop Rai's medical journey across several universities included the esteemed Harvard Medical School and University of Chicago. In association with the Student Research Forum, SM conducted a session allowing him to interact with the students of KMC Manipal. His talk included well needed advice about taking the path less taken. Dr. Anoop taught the students about self-improvement and the need to plan ahead. By his own example, he showed students that super-speciality medical fields are accessible to all and educated them on how to proceed living that dream.

MEDICAL HEALTH CAMP

In association with the Welcome Group of Hotels Association under the guidance of Dr. Mary Matthew, Scientia Medicina allowed 5-6 students the opportunity to volunteer at a Medical Health Camp set up at Madhav Kripa School, Manipal. The Medical Camp allowed students to perform basic medical check-ups and follow-up of the students of Madhav Kripa.

RESIDENCY AND MEDICAL EDUCATION IN GERMANY

Two German medical students came to Manipal University to intern at our college. These students, Ms. Alexi Gutkeiss and Ms. Anna-Lena Kriebel, were 5th Year German medical students from Hannover Medical School, Germany. Their talk on 27th April, 2017 encompassed the differences in medical treatment between India and Germany. They explained the intricacies of the working hospital and also the various facilities that medical doctors can avail. The talk also included details of how a medical student can continue their residency in Germany and the various options of other higher studies in research and other fields.

206 SHADES OF GREY

A Radiology based quiz was conducted by Scientia for the students of KMC, Manipal. The quiz consisted of a preliminary and final round, both of which required students to read ECGs, CTs, MRIs and other radiological diagnostic methods to arrive at the answer. The quiz was organized in association with the Department of Medicine, KMC.

ASSOCIATION WITH MSF-DOCTORS WITHOUT BORDERS

One of the biggest achievements of Scientia has been its collaboration with Medicines Sans Frontiers (MSF) popularly known as 'Doctors Without Borders'. Scientia Plans to continue this fruitful collaboration to provide its members the experience of being a doctor that serves health above all else.

STUDENT RESEARCH FORUM

Bhavya Mody, Nivedita Zakhar, Ashrita Shetty, Samrudhi Chaurasia, Sanchaya Khetrupal, Anila Vasireddy, Poorvaprabha Patil, Shivangi Gupta, Jagrati Jain, Anjori Gupta, Abhishek Gupta, Karan Kalra, Akshay T J, Pallavi Matai, Priyadarshini Nayak, Udeept Sindhu, Basharith Khan, Saurish Reddy, Anirudh Singh

"Most people say that it is the intellect which makes a great scientist. They are wrong: it is character."-Albert Einstein

KMC-SRF was a journey undertaken by experienced faculty and enthusiastic students of Kasturba Medical College, Manipal in 2008. Today it stands as one of the most unique student forums across the country.

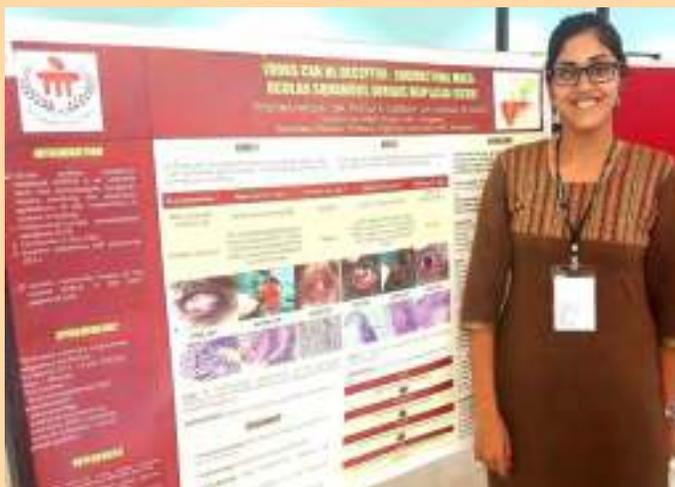

The committee started in 2017 with a promise to provide bigger and better opportunities to the students in the field of research.

Under the guidance of the Dean Dr. Pragna Rao, former Faculty Chairperson Dr. Asha Karnath, faculty Chairperson Dr. Shankar M Bakkanavar, and a board of faculty members, SRF was lead by the secretary Mr. Saurish Reddy and Joint Secretary Mr. Akshay T J. The committee sought out students who look beyond the horizons of the current medical academic curriculum.

This year, over 450 students have been actively involved in research and have presented posters nationwide in various prestigious conferences, including AFMC Illuminati, JIPMER Connaissance and EM India. The students proved their mettle as young researchers and many returned with awards.

Apart from conferences, students were encouraged to attend various medical quizzes to further challenge themselves.

KMC-SRF also initiated rapid administrative systems and improved streams of communication to the students through various media platforms.

Drawing inspiration from previous years, KMC-SRF brought a new addition to their list of programs and hosted the Wearable Devices Hackathon in association with the Innovation Centre.

Towards the end of the semester, a publication drive was launched to help students publish their work in reputed journals.

To conclude, KMC-SRF has been consistent in enabling the students of KMC Manipal to experience research in an exciting and student-oriented way. At the organizational level, it enabled the students within the forum to learn from the management and faculty. Thus, this year, SRF truly stood by their motto of 'Celebrating Research'.

SOCIAL WELFARE COMMITTEE

Spoorthi Shetty, Chandni Nijjar, Sarika Singh, Aishwarya V A, Reem Hunain, Nikita Shetty, Sanobar Hasan, Heraa Islam, Mehak Sachdeva, Rukmoni Balasubramaniam, Meghna Shivan, Sudeepti Singh, Poojitha Sivaraman, Aanvi Alakshya, Pravallika Recharla, Aashay Pande, Akanksha Sabapaty, Arya Poduval, Ketaki Pande, Abhishar Sharma, Rishi Govind, Akash Nayak, Bhanu Siva Mohan Pinnam, Dhaval Pipalia

About SWC:

The Social Welfare Committee (SWC) of KMC, Manipal is a committee that aims to better the society, and at the same time provides an enriching experience to both its members and the students of KMC. It creates opportunities for others to lend a helping hand to those in need and interact with people from various strata of the society. The members of this committee work selflessly in order to expand their reach as far and wide as possible.

What does SWC do?

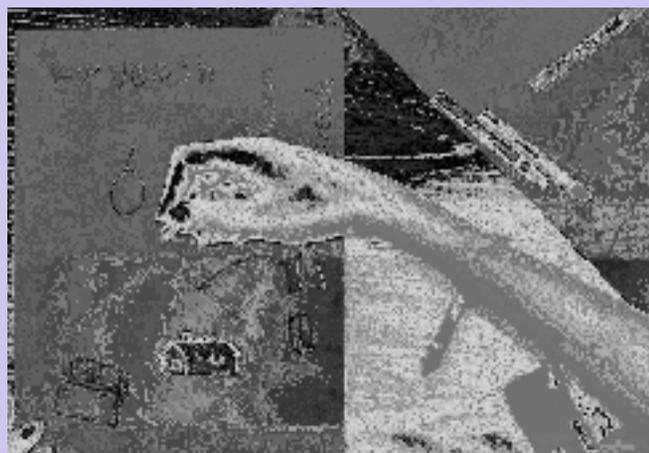

SWC hosts many events throughout the year. These include fundraisers to finance their various schemes, medical camps and blood donation drives. The committee also invites the students of KMC to take part as volunteers in many of their events.

EVENTS:

ASARE: Visits to ASARE are held weekly and leave both the volunteers and residents of ASARE with feelings of fulfillment and joy. It opens the eyes of the people to the lifestyle of the differently abled and mentally handicapped.

MEDICAL CAMPS: These camps are held periodically in different slums around Manipal, where children are given a health check-up by pediatricians and optometrists and prescribed appropriate medicines. The aim is to provide timely diagnosis and cure, and reduce the burden of disease.

BLOOD DONATION DRIVE: This event is hosted yearly to educate the public about the importance of blood donation and encourage them to do so more often.

HAEMOPHILIA CAMP: The committee members interact with children affected by hemophilia, learn about their lifestyles and the everyday challenges they face.

EACH ONE TEACH ONE: Both members and volunteers taught students from classes 5 to 9 at B.M. Parkala school.

ORPHANAGE VISITS: Students are given a chance to interact with children at the orphanage.

FUNDRAISERS: In order to raise money for its various activities, SWC holds popular events like C'est la Vie, Sportsquake and Art Mart.

SCHOLARSHIP: SWC offers a scholarship called 'Udaan' to students based on their academic performance, which helps further their education.

TEMPUS PRETIOSO

Sharvari Patra, Reetika Ramanathan, Vaishali Subbu, Sakshi Ramnani, Ishita Garg
Soumayan Mondal, Vinaayak Mehta, Karan Kalra, Deeksha Grover
Aashay Pandey, Niranjana Karthik, Prasiddh Hegde

Tempus Pretioso is KMC Manipal's first club exclusively dedicated to emergency medicine. It was started and is run by emergency medicine enthusiasts of the college. It works in close collaboration with the Emergency Medicine department of KMC, Manipal headed by Dr. Jayaraj MB. Tempus Pretioso is recognized by Emergency Medicine Association (EMA), India and INDUSEM (Inda-US health and medicine collaborative). It is a one of a kind club in India and was termed a 'pioneer in the field' by Dr.Vimal Krishnan, Principal Secretary, EMA at the EM-India conference.

What does the club do?

The club organizes workshops, simulation training and guest lectures to help students acquire skills required to deal with medical emergencies. The team uses state of the art technology provided by the Simulation Centre of Manipal University to train the students. Tempus Pretioso believes in acknowledging every effort made by the students in learning the skills, and hence the club provides certificates accredited by EMA and INDUSEM, for each session.

Events/Projects/Workshops

Tempus Pretioso conducted multiple events in the previous academic year. The first session by the club was a talk - 'A day in the ICU' by Dr. Anitha Nileshwar Shenoy of the Anesthesiology department. The club then organized 'EM SIM 1.0' in collaboration with Dr. Naman Agrawal of Emergency Medicine department, AIIMS, Delhi. It was a simulation training where students in groups of 5 had to deal with a simulated mannequin in an emergency situation. The workshop gained a lot of popularity. Next, the team organized a talk by Dr. Sagar Galwankar, a world renowned doctor & speaker, on 'Medical students today, health care tomorrow' which inspired students to make decisions on their choice in life. The team has also organized 'ER Rotations' where students were taken to the Emergency Ward and were taught about the working of the department under guidance by professors from Emergency Medicine. Tempus Pretioso conducted 'EM SIM 2.0' workshop in the IGCLA conference to spread the skills one acquires through this seminar, to a larger audience. The last session that the club conducted this year was 'EM Triage' where students were trained to classify patients in the triage into different levels according to the health status of each patient. Along with all the hands-on workshops and lectures, the club proudly started a WhatsApp group named 'EM Enthusiast' where interested students who have joined the group are given cases and image based questions to solve.

The Team

President- Karan Kalra
 General Secretary- Niranjan Karthik

IGCLA & IGMM

Palak Matanhelia, Shreeja Jha, Apoorva Dindukurthi, Sanjana Chand, Priyadarshini Nayak

Sehaj Cheema, Swara Kulkarni, Rithika Suvarna, Vaishnavi Puri, Vidyottama Rawat, Mrinalini Ravikumar, Vineela Mamidi, Shriya Dhaundiyal, Poorva Patil, Pragya Bhatt, Anurupa Udupi

Varun Kata, Jonathan Koshy, Basharath, Rishi Govind, Sufiyan Ibrahim, Suhan Rai,

IGCLA continues to work along the lines of the Lindau Nobel Laureate meets and strives to establish a network of alumni of the Lindau Meetings and provide a platform for them to share their research and experiences which could also open doors for multi and interdisciplinary collaborations.

IGCLA wishes to introduce students from diverse disciplines to research from the undergraduate level by providing a platform for them to interact with the Lindau Alumni and possibly develop their interest in pursuing a career in science.

IGCLA 2017 was hosted between 21st-24th September 2017. Its inauguration on 21st September was overseen by Dr. Vinod H Bhatt, Vice-Chancellor, MU and Dr. Poornima Baliga, Pro-Vice Chancellor, MU along with Dr. Pragna Rao, Dean, KMC Manipal and Dr. Philipp Du Cross, MSF Manipal. Our two keynote speakers were Dr. Anibh Das, Hannover Medical School, Germany and Dr. V M Katoch, Former DG of Indian Council of Medical Research.

IGCLA housed over 500 delegates during the four days and organized several sessions for them.

IGCLA boasts of forming several collaborations during its time. These include societies such as MSF-Doctors without Borders, DAAD-German Research Foundation and German Chamber of Commerce. Medtronics, Indian Astrobiology Research Centre, Amere to name a few.

IGCLA hosted two quizzes, Panacea-The Multidisciplinary Quiz and Questination-The Medical Quiz. Both quizzes received participation by over 20 teams with 3 team winners each.

Two special events were also organized during IGCLA. CSI, Manipal by Department of Forensic Medicine and Wearable Device Hackathon by Innovation Center Manipal.

IGCLA 2017 hosted a wide range of workshops spanning the first two days of the conference. These workshops allowed students a hands-on view of core medical and basic science concepts.

The workshops included Basic Research Methodology and Statistics, Emergency Medicine Simulation, Making Ends Meet, Abhyang, Humpty Dumpty, Who Let the Rats Out?, De Qi, Laser AveNude, Stempeutics, Brainwaves, Interventional Radiology, Astrobiology: Interstellar, Medical Image Processing: Analysis and Visualisation, Bio Photonics, Warzone Medicine

IGCLA also featured a grand cultural Gala Night with hearty food and good music.

IGCLA's poster competition had three categories - Research, Case and PG Thesis. Over 180 abstracts were submitted for the poster competition. Judges from various colleges of Manipal University were called to evaluate the work of the delegates. MSF-Doctors without Borders conducted an exclusive movie screening of Fire in the Blood for all the IGCLA Delegates.

The Indo German Metabolic Meet was a 2 day conference organized by Kasturba Medical College, in association with Hannover Medical School, Germany and Manipal College of Pharmaceutical Sciences, Manipal.

The conference was inaugurated on 23rd September by Dr. Poornima Baliga, Pro-Vice Chancellor, Manipal University and Dr. C. Mallikarjuna Rao, Principal, MCOPS, Manipal. The Keynote Speaker for the conference was Prof. Dr. Anibh Das, Hannover Medical School, Germany.

Workshops on Metabolic Screening, Mass Spectroscopy and Pedigree Analysis were conducted for the delegates including a poster competition including over 50 abstracts - both case reports and research papers.

Several Speakers were present at the conference including Dr. M Kaur, Mr. Vikas Bhatia and Dr. Chaitanya Datar.

FRESHERS | 2017

Cultural Teams

Captains

Top (L to R): Sindhu Manjunath, Dr. Kaustabh Sen, Daksh Ahluwalia, Pranav Rajasekhar, Saptarshi Bajpai, Govind Sreenivas, Arjun Kumar

Bottom (L to R): Umang Agarwal, Rizwin Iqbal, Sakshi Ramnani, Bijoyini Bose, Sweta Suria, Sayli Nagraj

Art

Anjori Gupta, Shraddha Murali, Sanam Gavankar, Arjun S Nair, Arup Saha, Aman Saraf, Pritam A Shetty, Jossil Nazareth, Gayathri Jyothish, Diya Ann Varghese, Arjun S Nair, Shraddha Murali, Sanam Gavankar, Rishi Govind Orakkan, Diya Ann Varghese, Sehaj Cheema, Aparna Nair, Palak Matanhelia

Lumen

Armaan Ahuja, Aashay Pandey, Sanketh Mohanty, Disha Patra, Gayathri Jyothish, Siddarth Pratapneni, Shivangi Maheshwari, Akshay Chaudhary, Yashaswinee V S, Arika D'Souza, Neha Bhatia, Farah Khan, Poorvaprabha Patil

Literary
