Department practices the top B-school approaches in enhancing placement opportunities to students. Any top B-school imparting training in management courses will have strong ties with their alumnus. We follow that practice which helps us improve our footprints in consultancy projects, placement opportunities and apprenticeship opportunities in hospital management. In this regard, a Global alumni meet was conducted by department in December 2018, wherein friends from middle-east and all over India flew in to Manipal for a 2-day get-together – MILAP – 2018 – Global Alumni Meet of Department of Hospital Administration.

Community service

Department had organized awareness on hand washing practices through hospital to the community. We were instrumental in providing volunteer services for "Guinness World Record in Hand washing" as part of patient safety week in 2016, where 3422 pairs of hands were rallied through one day towards hand sanitizing practices. These workshops were held in rural public schools in Manipal & Hiriyadka by a team of MHA students in year 2017.

Our department PGs have created awareness about voluntary organ donation in 2019, to police personnel, auto rickshaw drivers as part of workshop conducted.
