A 2-day programme of “Virtual learning workshop on Immunoematology” was organized by the Department of Immunoematology and Blood Transfusion in association with Ortho Clinical Diagnostics and Special Interest Group- Immunoematology(SIG-IH) of Indian Society of Transfusion Medicine on 5th and 6th of August 2021. Immunoematology is a subspecialty of Transfusion medicine which plays a significant role in patient blood management. In this workshop, resource persons from various reputed Institutes in India covered the topics from basics to challenging cases in Immunoematology like Autoimmune hemolytic anemia, hemolytic disease of the foetus and the newborn and so on. The sessions also included video demonstrations of the key procedures like Quality control and pre-transfusion testing in Immunoematology. After each session, quiz on respective topic was conducted through poll followed by interactions and Q & A sessions of participants with the panelists. With more than 150 participants each day which includes consultants, junior residents and technicians from across the world, the workshop was successful in providing a great learning platform.
