About MAHE

Manipal Academy of Higher Education is synonymous with excellence in higher education. Over 28,000 students from 57 different nations live, learn and play in the sprawling university town. It also has nearly 2500 faculty and almost 10000 other support and service staff, who cater to the various professional institutions in health sciences, engineering, management, communication and humanities. The university has off-campus in Mangaluru, Bengaluru, Jaipur and off-shore campuses in Dubai (UAE) and Melaka (Malaysia). Each of these institutes has world class facilities and pedagogy, which are constantly reviewed and upgraded to reflect the latest trends and developments in higher education. The Union Ministry of Human Resource Development (HRD) has granted Institution of Eminence (IoE) status in 2018.

Manipal College of Pharmaceutical Sciences (MCOPS):

A constituent unit of MAHE, Manipal which was established in 1963. MCOPS offers DPharm, BPharm, MPharm, PharmD. Post Baccalaureate and PhD programmes. The college celebrated its Golden Jubilee during the year 2012-13. The college is ranked 251-300 in QS World Ranking. MCOPS has been ranked number 7 amongst Pharmacy Institutions of India by NIRF, MHRD, Govt. of India in 2018. AICTE has identified this institution as a center for Quality Improvement Program (QIP). College is organizing QIP regularly for the benefit of pharmacy teachers.

The college has many research projects funded by various industries and government funding agencies. It boasts of a centralized state-of-the-art library, research center and centers of excellence. The college is attached to one of the best teaching hospitals - Kasturba Hospital.

About this QIP

Despite huge investment in the health sector reforms in India, public health system still remains unaffordable to a vast majority. An estimate of 70% of the population incurs health-related expenses for just primary healthcare. Conventionally, allopathy is the first choice for emergency and surgery. However, for treatment of chronic ailments, prevention of diseases and wellbeing, help from other evidence-based systems is sought. Integrative healthcare is the need of the hour for healthcare in the 21st century. A long-term strategy involving radical changes in medical education, research, clinical practice, public health and the legal and regulatory framework is required, to innovate India's public health system and make it both integrative and participatory.

Objectives of the QIP:

1. Recent advances in Pharmacology for holistic disease management
2. Understand status quo in patient-centered care in evidence-based pharmacy practice
3. Exploration of opportunities in indigenous systems of medicine in health care

Organised by the Departments of:

Pharmacology
(18 - 21 March 2019)

Pharmacy Practice
(22 - 26 March 2019)

Pharmacognosy
(27 - 30 March 2019)
