About the conference

Pharmaceutical Sector is ever-growing industrial segment. However, it is stringently controlled by regulatory authorities/ guidelines. Advanced R & D activities and newer technologies are continuously changing the horizons of pharmaceutical manufacturing process. The introduction of Quality-by-Design, Computer Aided Drug and Drug Product Design, Six Sigma and Lean Manufacturing Process, Personalized Medicine, Customized Drug Delivery Approaches, etc is captivating the pharma sector into a cutting-edge industrial landscape with improved productivity, quality, management, therapeutic outcomes, and finally with better patient compliance. Such advancements are essential for the industries to persist in the marketplace. Therefore, pharmaceutical professionals must recreate the knowledge in these areas to keep themselves updated. This conference is designed to create a concerted forum to deliberate on the recent advancement in pharmaceutical manufacturing, quality assurance, and regulatory aspects of pharmaceutical products.
