

The Department of Pharmacology, Manipal College of Pharmaceutical Sciences, Manipal strives to cultivate a right avenue for self and lifelong learning that would:

PEO No Education Objective

- PEO 1 Build education, not only to secure MPharm degree in Pharmacology, but also to develop abilities to assimilate the knowledge, skills and research competencies for application in therapeutics and Drug Discovery and Development (DDD).
- PEO 2 Hone the acumen and skills required to deliver effective services for pharmaceutical industry, academia and health care sector.
- PEO 3 Promote a proclivity for higher learning, entrepreneurial abilities and pursue a career in research.
- PEO 4 Foster the best in-class psychomotor skills to perform experiments envisaging the molecular mechanisms of lead molecules using platforms such as in-silico tools, cell cultures and cell-based assays, animal models using state-of-the-art facilities.
- PEO 5 Inspire and inculcate pharmacologists to employ ethical and good practices to serve for the benefit of society, Pharmaceutical Industry and Pharmaceutical Care.
